Attracting New Audiences: Community Outreach and Partnerships

When thinking of what first brought them into their art house theater, many respondents pointed to events involving other community organizations.

- The Coral Gables Art Cinema (Coral Gables, FL) partners with Books & Books and the Coral Gables Museum to put on **Family Day on Aragon** the second Saturday of every month.
- This event brings together families for a day of discounted movies, free story time/entertainment and free museum admission.

- Gateway Film Center (Columbus, OH) and the Columbus Metropolitan Library join forces to deliver **From Book to Film** – a summer family film series the offers free admission with a library card.
- From May until August they offer daily showings of a movie inspired by a great book, and rotate films weekly.
Community discussions can give art houses visibility and help win new audiences

- **The Music Box Theatre** (Chicago, IL) hosted a screening of *Silence* on behalf of the Archdiocese of Chicago's Department of Parish Vitality and Mission.
- Post-screening, a cardinal from the archdiocese hosted a conversation and reflection from the audience, creating a unique cultural opportunity for people of all backgrounds and religions.

- Seasonal programming at **Robinson Film Center** (Shreveport, LA) includes *Faith on Film*, bringing together area clergy members from different religions and denominations to have a conversation on faith as seen through the lens of film.
It is still true that a great experience will keep them coming back: “A beautiful, timeless theater unlike no other with a great community and an appreciation for good film”

“I found out the Music Box was a beautiful, timeless theater unlike no other with a great community and an appreciation for good film”
Although it is difficult to offer more of every kind of programming, there are a number of changes that organizations can offer to increase attendance.

- Restored classics and matinees have widespread appeal
- Other changes appeal differently to different age groups
