ABOUT CONVERGENCE

Who We Are

Art House Convergence (AHC) is an association dedicated to advancing excellence and sustainability in community-based, mission-driven media exhibition. Each year our annual conference, regional seminars, and programs provide networking opportunities, educational resources, and define best practices for hundreds of theaters and festivals located throughout North America. Collectively, our constituents host over 20 million audience members annually.

What We Do

We exhibit film for the cultural enrichment of our communities and expand the audiences for specialty cinema in North America. We count art house cinemas, independent theaters, museums, educational institutions, film societies, microcinemas, and film festivals as our key constituents.

Why We Meet

Our events bring together an international network of exhibitors to share best practices, resources, and to advocate on behalf of our sector of the cinema marketplace. Sessions address topics including new technology, programming trends, and strategies for marketing, fundraising, and audience development.

Who Is the Art House Patron

The art house patron is a dedicated cinema-goer who attends an average of 35 films annually (2017 AHC National Audience Survey), compared to the national average of 3.8 films annually (2016 MPAA Audience Report). Their income is approximately 20% higher than the US average, and they are much more likely to be highly educated. Art house patrons value program diversity, customer service experience, concessions variety, picture and audio quality, and accessibility.
